

ECE EREN

Adana, Turkey | +90 531 212 2129 | eceeren.dev@gmail.com | LinkedIn | GitHub

Technical Skills

Languages: Python, JavaScript, C#, SQL, HTML, CSS

Web Technologies & Frameworks: FastAPI, Streamlit, ASP.NET Core MVC

AI & Data: Retrieval-Augmented Generation (RAG), LLM Integration (Gemini, Groq), Function Calling, ChromaDB, SQLite, SQLAlchemy, MS SQL Server

Tools, DevOps & Design: Docker, Git, WordPress, Figma, Canva, Notion, Google Workspace

Experience

Google AI and Technology Academy

December 2025 – Present

Intern (Google TR, Entrepreneurship Foundation Turkey, T3 Foundation)

Turkey

- Selected as part of the 1,500 cohort from over 31,700 applicants nationwide (4.7% acceptance rate).
- Undergoing intensive hands-on training in Artificial Intelligence, Python Development, and Technology Entrepreneurship supported by the Ministry of Industry and Technology.

Adana Metropolitan Municipality

June 2025 – August 2025

Software Developer Intern

Adana, Turkey

- Developed an interactive web prototype using HTML, CSS, and JavaScript for citizen complaint/request tracking and municipal event schedules.
- Conducted system analysis and feasibility research for public transit fleet tracking infrastructure.

Education

Istanbul University

October 2025 – Present

Associate Degree in E-Commerce and Marketing

Istanbul, Turkey

Mersin University

September 2023 – May 2025

Associate Degree in Computer Programming

Mersin, Turkey

Projects

Gastromic | Figma, Mobile UI/UX, Motion Design, Firebase, Prompt Engineering

August 2026

- Designed brand identity assets, official application icon, splash screens, and motion UI elements for an AI-powered personalized culinary itinerary application.
- Architected modern, scalable UI/UX layouts for Settings and User Preference onboarding modules.
- Integrated Firebase for user state management and coordinated prompt engineering flows with the core engineering team.

Aura.AI | Python, FastAPI, Google Gemini 2.5 Flash, SQLite, RAG, WhatsApp API

May 2026

- Engineered a solo WhatsApp-integrated autonomous SME operations assistant for the AI & Technology Academy Hackathon (Autonomous AI Agents track).
- Architected a 13-tool function calling system consolidating automated order fulfillment, inventory management, and customer messaging.
- Implemented semantic product search using Gemini embeddings (RAG), JWT-based authentication, and automated stock alerts.

DocMind-AI | Python, Streamlit, Groq API, RAG, ChromaDB, Docker

April 2026

- Built an AI document intelligence application allowing users to upload documents and perform natural language Q&A.
- Leveraged Groq LPU acceleration and ChromaDB for low-latency contextual retrieval (RAG) and containerized the architecture with Docker.

Certifications

Google Project Management Professional Certificate | Google

July 2026

Certificate of Completion: Deep Learning | AI and Technology Academy

April 2026

Certificate of Completion: Web Application Development | AI and Technology Academy

March 2026

Certificate of Completion: Fundamentals of Entrepreneurship | AI and Technology Academy

February 2026
